## How We Are Different

Although most companies offer installation of their product, we differentiate ourselves by offering expert advice and premium service based on over eighteen years experience in the business. Our expertise in the window shading business has been acquired through working with manufacturers as well as designers and architects. We regularly provide consultation services to local design professionals. We specialize in motorized as well as manually operated shading products to provide you with the very best and most cost-effective product for your particular application. Guaranteed service and high quality, technologically advanced products are our foremost offerings

to create a company our customers can trust. Our goal is to exceed our customers' expectations.

*We specialize in Motorized Window Treatments, like the one shown above; they block the sun and not the view.*

## Our Experience

We have over 18 years experience in the window treatment industry. Our portfolio is growing daily. You can see some photos of the projects that have been completed by visiting our website:  
[www.SolarShadingSolutions.net](http://www.SolarShadingSolutions.net).

Our installers are insured and labor and materials are 100% guaranteed. We will happily provide references upon request.

Please contact us at (808) 638-9999 for a no-obligation consultation to find out how you can best shade you or your clients from the powerful Hawaiian sun.
